ENDOMETRIOSIS: AN UP TO DATE

The meeting on Endometriosis management aims to give to the participants a comprehensive overview of this complex disease.

The 3 days will be held in Siena, organized by the local team led by prof. Errico Zupi with the help of Italian and international experts in this field.

Every delegate will have the chance to enlarge their skills in minimally invasive approach to endometriosis along with diagnostic and therapeutic options to have an holistic overview of the disease.
