

Monday 19 November

COURSE ON PELVIC ANATOMY LIVE SURGERY ON CADAVER

Laparoscopic surgical anatomy of the pelvis and retroperitoneal spaces for basic and advanced pelvic surgery

Organized by the
“International School of Surgical Anatomy”
(ISSA School)

Chair: Marcello Ceccaroni

Co-Chairs: Francesco Ruotolo, Giovanni Roviglione

The agenda of the surgical anatomy day was designed for gynecologists who are interested in deepening the knowledge of the anatomy of the pelvis for the minimally-invasive treatment of gynecological malignancies and benign disease.

The course aims at illustrating different minimally-invasive approaches for each disease, based on anatomical-surgical principles of the various pelvic compartments.

The course shall include theoretical sessions about the anatomical-surgical techniques of treatment of each compartment and of the different diseases that will be analyzed, as well as live surgery sessions on a cadaver model about the different techniques and previously treated anatomical regions.

At the end of the course, participants will have deepened their knowledge of pelvic anatomy, being able to identify vascular, nerve and connective tissue structures within the pelvis, retroperitoneal approaches to infiltrations, representation points and anatomical and surgical steps of the main gynecological surgeries.

08.30 am - 01.00 pm	FIRST SESSION <i>Chairmen: A. Puppo, F. Ruotolo, D. Mautone</i>
08.30 am - 08.50 am	Welcome to participants
08.50 am - 09.40 am	Keynote lecture: Surgical Anatomy of the Infra-Mesocolic Space and the Pelvic Spaces - <i>F. Ruotolo</i>
09.40 am - 10.00 am	Laparoscopic Surgical anatomy of the Pelvis and Retroperitoneum: What we need to know for a safe surgery - <i>S. Uccella</i>
10.00 am - 10.20 am	Laparoscopic Surgical Anatomy of Total Hysterectomy Step-by-Step - <i>F. Fanfani</i>
10.20 am - 10.40 am	Laparoscopic Surgical Anatomy of Radical Hysterectomy and different classes of Radicality - <i>M. Malzoni</i>
10.40 am - 10.50 am	Discussion
10.50 am - 01.00 pm	Interactive Live Cadaveric Surgery on Fresh Cadaver, "Surgical Anatomy and Laparoscopic Approaches to Retroperitoneum and Pelvic Nerves" from the <i>ICLO Teaching and Research Center San Francesco di Sales of Verona</i> Surgeons: M. Ceccaroni, V. Chiantera
01.00 pm - 02.00 pm	Break
02.00 pm - 06.30 pm	SECOND SESSION <i>Chairmen: A. Puppo, F. Ruotolo, D. Mautone</i>
02.00 pm - 03.00 pm	Interactive Live Cadaveric Surgery on Fresh Cadaver, "Surgical Anatomy and Laparoscopic Approaches to Retroperitoneum and Pelvic Nerves" from the <i>ICLO Teaching and Research Center San Francesco di Sales of Verona</i> Surgeons: M. Ceccaroni, V. Chiantera
03.00 pm - 03.20 pm	Laparoscopic Surgical Anatomy of Pelvic Lymphadenectomy - <i>G. Roviglione</i>

03.20 pm - 03.40 pm	Laparoscopic Surgical Anatomy of Para-aortic Lymphadenectomy - <i>A. Puppo</i>
03.40 pm - 04.00 pm	Break
04.00 pm - 04.20 pm	Laparoscopic Surgical Anatomy of Anterior Compartment: Tips and Tricks for Radical Pelvic Surgery - <i>D. Mautone</i>
04.20 pm - 04.40 pm	Laparoscopic Surgical Anatomy of Posterior Compartment: Tips and Tricks for Radical Pelvic Surgery - <i>R. Clarizia</i>
04.40 pm - 05.00 pm	Laparoscopic Surgical Anatomy of Pelvic Floor and Suspension/Supporting system of the pelvis <i>G. Campagna</i>
05.00 pm - 05.20 pm	Laparoscopic Surgical Anatomy of the Pelvis: How Can Anatomy Help the Surgeon in Preventing Complications <i>S. Uccella</i>
05.20 pm - 05.30 pm	Discussion
05.30 pm - 06.15 pm	Interactive Video-Sessions
06.15 pm - 06.30 pm	End of the Course
