# ONE DAY ON ADVANCED COURSE ON OBSTETRICS ULTRASOUND

From screening to diagnostic. From theory to daily practice

Chaired by:

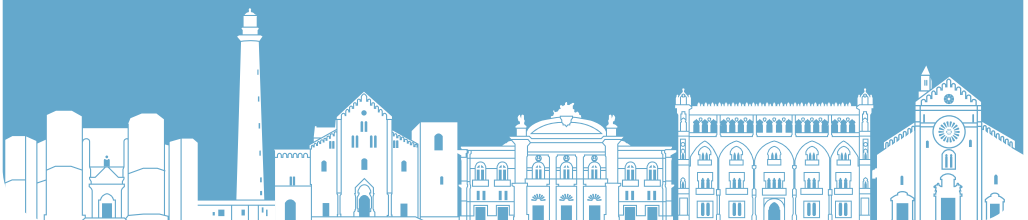

# SIEOG

Società Italiana di Ecografia Ostetrico Ginecologica e Metodologie Biofisiche

This course shall teach the methods of carrying out a screening and diagnostic examination of the fetal heart and brain on both a theoretical and practical level.

At the same time, it shall describe the different reasons for performing an echocardiography and / or fetal neurosonography.

Furthermore, it shall highlight the current possibilities of evaluating the anatomy of the fetus during the first trimester of pregnancy and using new technologies, both from a theoretical and practical point of view.

---

08.30 a.m. - 08.45 a.m. Welcome to participants

---

### **FETAL BRAIN**

08.45 a.m. - 10.00 a.m. Lectures

10.00 a.m. - 10.45 a.m. Live procedures: From the screening to the fetal neurosonography

---

### **FETAL HEART**

10.45 a.m. - 12.00 p.m. Lectures

12.00 p.m. - 12.45 p.m. Live procedures: From screening to performing fetal echocardiography

---

12.45 p.m. - 01.30 p.m. Lunch with the exhibitors

---

### **FIRST TRIMESTER OF PREGNANCY**

01.30 p.m. - 02.45 p.m. Lectures

02.45 p.m. - 03.30 p.m. Live procedures: Fetal anatomy evaluation during the first trimester of pregnancy

---

### **3D/4D ULTRASOUND OF FETAL ANATOMY**

03.30 p.m. - 04.45 p.m. Lectures

04.45 p.m. - 05.30 p.m. Live procedures: How to study the fetus in 3D & 4D

---
