BRAZILIAN SOCIETY OF ENDOMETRIOSIS and MINIMALLY INVASIVE GYNECOLOGIC SURGERY

THE INTERNATIONAL SOCIETY FOR GYNECOLOGIC ENDOSCOPY
PROMOTING VAGINAL SURGERY
Following the echo of Endometriosis2017, it’s a pleasure and honor to announce our next meeting Endometriosis2020, to be held on 26th-29th April 2020 in the fascinating atmosphere of the eternal city, Rome. Renzo Piano’s creation Auditorium Parco della Musica, a vital part of cultural international landscape, will open its doors to science.

In line with our previous event, the upcoming Endometriosis2020 will reserve a central role to live surgical laparoscopic marathon performed by leading worldwide experts, with special focus on surgical anatomy and neuropelveology for their crucial role on a such complex issue.

New devices and techniques will be showed, thus being also an update opportunity according last developments from medical industry.

**Great surgeons on stage and that’s not all.** We strongly believe in education and in the need of practical appraisal for increasing surgical learning curve, so the days immediately before will be dedicated to hands on laparoscopic course: Gladiators back home.

Furthermore main sessions and symposia will be dedicated to advanced diagnostic techniques (lectures and live sessions), medical treatment options and reproductive issues, which play a key role in both presurgical and conservative management of patients affected by this benign but often devastating disease.

Four days of intensive scientific activity to share and compare the experiences from main international referral centers and opinion leaders.

_We promise all our efforts and passion to make the event great, Rome’s magnificence will do the rest._

“GLADIATOR’S BACK HOME”
GLADIATOR TUTORS GAMES PROGRAM
FAST AND FURIOUS AWARD

08.30 am - 09.00 am  Selection of the challenge group and registration
09.00 am - 11.00 am  Monomanual challenge qualification for final step and others challenges
                      The video of challenge: rules A. Romeo
11.00 am - 12.30 pm  Final challenge Mono, left and right hands and bimanual techniques
                      The video of challenge: rules A. Romeo
12.30 pm - 01.00 pm  Lunch time
01.00 pm - 01.30 pm  Fast and safe knot tying challenge
01.30 pm - 03.30 pm  Blocking sequences challenge with time qualification
                      The video of challenge: rules A. Romeo
03.30 pm - 05.00 pm  Final step 5 mandatory sequences and 5 participant free choice sequences
                      Dynamometer test of safe and strength of ALL combinations
05.00 pm - 06.00 pm  The Champion of Champions award the best and fast and safe in sequences combinations
05.00 pm - 06.00 pm  End of the Games
PG COURSE 1:
LAPAROSCOPIC SUTURING TECHNIQUE:
GLADIATOR’S BACK HOME

Course Director: Armando Romeo

Suturing is a turning point towards Advanced Laparoscopic Surgery. Combination of the correct stitch and knot tying can be responsible for the success of a complex surgery. Appropriate rules make difficult things easy. The Romeo’s Gladiator Rule puts suturing at the hands of all laparoscopists. The knowledge acquired by Romeo’s Gladiator School explain which knots are safe and unsafe or dangerous and how to perform them. This course provides a broad comprehension about the art of laparoscopic suturing, mixing theory and practice.

Course Objectives
At the conclusion of this activity, the participant will be able to:

- identify safe, unsafe and dangerous knots;
- perform bimanual knot tying following the Romeo’s Gladiator Rule
- Loading the needle and stitching with both hands and supra pubic route.

Proposed Faculty
- F. Almeida (Brazil)
- F. Arcoverde (Brazil)
- P. Bellelis (Brazil)
- F. Bevilacqua (Italy)
- M. Bovetti (Italy)
- R. Cabrera Carranco (Mexico)

- R. Fernandes
- L. Gibran
- G. Kamergordosky
- E. Salomao Ayroza
- A. Silva
COURSE OUTLINE

08.30 am - 08.45 am Welcome, introduction and Course overview
Chair: A. Romeo

08.45 am - 09.15 am Safe, unsafe and dangerous knots in laparoscopy:
How to teach for avoiding the insecure knots
A. Romeo

09.15 am - 09.45 am Romeo’s Gladiator Rule: the universal knot tying technique - B. Porto

09.45 am - 10.10 am The theory of the perfect stitch - C. Rocha

10.30 am - 12.30 pm LAB: Romeo’s Gladiator Knot Tying Technique with right
dominant knot tying hand from lateral-lateral
ports-blocking sequences - All Faculty
LAB: Romeo’s Gladiator Knot Tying Technique with right
dominant in supra pubic port and the assistant
in left hand port -blocking sequences - All Faculty

12.30 pm - 02.00 pm Lunch

02.00 pm - 03.15 pm LAB: knot tying with left dominant hand and right
assistant hand in supra pubic trocar-blocking sequences
All Faculty

03.15 pm - 06.00 pm LAB: loading of the needle maneuvers
The perfect stitch with right and left hands-training
with bimanual stitches and sequences - All Faculty

06.00 pm Questions & Answers - All Faculty
PG COURSE 2:
ENDOSCAN: ULTRASOUND IN ENDOMETRIOSIS
Focus on US evaluation of abdomino-pelvic endometriosis spread.
Tips and Tricks from the Experts

Course Director: Alessandra Di Giovanni

Pelvic endometriosis is nowadays a main diagnostic challenge. Combined transabdominal/transvaginal US evaluation plays a crucial role in the diagnostic work up of this complex disease and it’s recognized as the first-line non-invasive imaging tool for its high accuracy in expert hands. Detailed mapping of endometriotic lesions and their extension in abdomino-pelvic compartments is the key for proper surgical and clinical management of patients affected by this benign but often debilitating disease. Based on the latest scientific evidences and experts’ opinion, this course is aimed at increasing expertise in the evaluation of adenomyosis, adnexal and deep infiltrating endometriosis.

Course Objectives
At conclusion of this activity, the participant will be able to:

- recognize anatomic landmarks crucial for understanding disease’s extension;
- detect ultrasonographic signs of uterine, adnexal and deep infiltrating endometriosis;
- develop a systematic approach for proper ultrasonographic evaluation of female pelvis;
- offer patients a first line high quality US evaluation and understand which cases require more advanced experts’ evaluation.
COURSE OUTLINE

09.30 am - 10.00 am  Registration

10.00 am - 10.20 am  Ovarian endometriosis: potential pitfalls of an apparent easy diagnosis. Detection and management of typical and atypical findings - S. Guerriero

10.20 am - 10.40 am  Adenomyosis: current most fashionable endometriosis expression. Up to date on diagnostic evidence - C. Exacoustos

10.40 am - 11.00 am  Anatomical abdomino-pelvic landmarks: normal features you should know and see to be aware of endometriosis related distortion - A. Di Giovanni

11.00 am - 11.20 am  Are current endometriosis classifications applicable to ultrasound staging with soft and hard markers? - C. Exacoustos

11.20 am - 11.30 am  Discussion

11.30 am - 12.05 pm  Anterior compartment: bladder and abdominal wall infiltrating lesions - L. Savelli

12.05 pm - 12.25 pm  Posterolateral compartment: rectovaginal and retro/paracervical lesions, potential impact on ureters and neural pelvic plexa - A. Di Giovanni

12.25 pm - 12.45 pm  Posterior compartment: bowel endometriosis - M.O. Goncalves

12.45 pm - 01.05 pm  What does the surgeon ask for proper and safe DIE surgical planning - M. Malzoni

01.05 pm - 01.25 pm  Postsurgical evaluation and follow up - P. Carfagna

01.25 pm - 02.00 pm  Discussion

02.00 pm - 02.15 pm  Challenge test

02.15 pm - 03.00 pm  Lunch
COURSE OUTLINE

03.00 pm - 05.45 pm PRACTICAL TRAINING SESSION - All Faculty

03.00 pm - 03.15 pm 3D volume acquisition and post processing technique
L. Lazzeri

03.15 pm - 03.30 pm Live scanning - C. Exacoustos

03.30 pm - 03.55 pm Live scanning - S. Guerriero

03.55 pm - 04.10 pm Clinical cases review (US) - F. Fascilla

04.10 pm - 04.25 pm Live scanning - P. Carfagna

04.25 pm - 04.50 pm Live scanning - L. Savelli

04.50 pm - 05.05 pm Clinical cases review (US/MRI) - S. Young

05.05 pm - 05.15 pm Live scanning - M.O. Goncalves

05.15 pm - 05.40 pm Live scanning - A. Di Giovanni

05.40 pm - 05.45 pm Discussion and take home messages
PG COURSE 3:
ENDOMETRIOSIS AND INFERTILITY

Course Directors: Antonio Pellicer, Filippo Maria Ubaldi

The course intends to give a general overview of the problems found in infertile women with endometriosis and adenomyosis, a quite frequent phenomenon. From pathophysiology, to diagnosis and management, the course describes the most updated knowledge and proposes effective therapies for infertile women.

Course Objectives
At the conclusion of the course participants will be able to:

- understand the pathophysiology of endometriosis and adenomyosis;
- understand how both entities affect oocyte/embryo quality and endometrial receptivity;
- understand the therapeutic benefits of both medical and surgical approaches.

COURSE OUTLINE

SESSION I

PATHO-PHYSIOLOGY

Chairs: A. Pellicer, L. Rienzi

10.30 am - 11.10 am  The association endometriosis-infertility: what is new?  
C. Bulletti

11.10 am - 11.50 am  Oocyte quality in women with endometriosis 
F. Dominguez Hernandez

11.50 am - 12.30 pm  Deep endometriosis and uterine adenomyosis: are they two linked diseases?  
J. Donnez
### SESSION II

**DIAGNOSIS AND PREVENTION**  
**Chairs:** F. Cappiello, F. Ubaldi

09.10 am - 09.30 am Uterine adenomyosis: a challenge for the gynecologist. What is the best approach? - J. Donnez
09.30 am - 09.50 am Managing ovarian disease from adolescence to perimenopausal age - L. Muzii
09.50 am - 10.10 am Minimizing ovarian surgical damages: some help from new technologies? - H. Roman
10.10 am - 10.30 am Q&A

LIVE SURGERY AND LIVE US FROM WOMEN’S HEALTH CENTER VILLA DEL ROSARIO, ROME

10.30 am - 03.30 pm Chairs: H. Dionisi, C. Miller, E. Piccione, M.G. Porpora, V. Remorgida

Surgeons: M. Abrão (OR 1) M. Candiani (OR 2) M. Malzoni (OR 3) R. Seracchioli (OR 2)

OR Coordinator: A. Mattei
03.30 pm - 03.45 pm  VIDEO PRESENTATION  
Treatment of deep infiltrated endometriosis with Lotus torsional ultrasound dissector - B. Krämer

OPTIMIZE WOMEN WELLBEING AND REPRODUCTIVE HEALTH  
Chairs:  F. De Cicco Nardone, E. Greco, S. Schettini, T. Seckin, F. Zullo

03.50 pm - 04.10 pm  Infertile patients: tackling the dilemma of proper management between surgery and assisted reproductive technology - A. Setubal

04.10 pm - 04.30 pm  When reproductive failure is a fact: IVF current options and new horizons of ovarian rejuvenation - A. Pellicer

04.30 pm - 04.50 pm  Is there a rationale for fertility preservation in women with endometriosis? Focus on ovarian tissue preservation - E. Cittadini

04.50 pm - 05.10 pm  How to prevent reproductive failure: oocytes cryopreservation - F. Ubaldi

05.10 pm - 05.30 pm  Not only childbearing: how to support patient’s sexual health and quality of life - A. Graziottin

05.30 pm - 06.00 pm  Q&A
ENDOMETRIOSIS IN THE YOUNGER PATIENT
ISGE Symposium

Chairs: B. van Herendael, R.P. Pasic, A. Ussia

03.30 pm - 03.45 pm Adenomyosis diagnosis and endoscopic treatment
B. van Herendael

03.45 pm - 04.00 pm Decision tree for treatment of ovarian endometrioma in
women who are experiencing fertility issues - C. Miller

04.00 pm - 04.15 pm Rode of vasopressin in improving ovarian reserve at
surgery for Endometriomas - P. Mangeshikar

04.15 pm - 04.30 pm Counseling of the patients in view of the delayed
diagnosis - A. Rossetti

04.30 pm - 04.45 pm Laparoscopic treatment taking in account the pelvic
nerves in DIE - T. Viju

04.45 pm - 05.00 pm Endometriosis hidden diagnosis in hidden places
R.P. Pasic

05.00 pm - 05.15 pm Adolescent/teenage endometriosis - a case for early
surgical intervention - B.D. Goolab

05.15 pm - 05.30 pm Deep endometriosis in younger patient. Why and when
should we operate? - W. Kondo

05.30 pm - 06.00 pm Q&A
UNRAVELLING PELVIC ANATOMICAL DISTORTION FROM DEEP ENDOMETRIOSIS: STRATEGIES FOR PROPER AND SAFE SURGICAL PROCEDURES

Chairs: M. Abrão, L. Adamyan, F. Ghezzi, G. Rofe, T. Seckin

08.30 am - 08.50 am Surgery on bladder disease - A. Mattei
08.50 am - 09.10 am Surgery on parametrial / lateral disease - A. Wattiez
09.10 am - 09.30 am Bowel involvement everlasting debate: time to settling criteria for proper indications and surgical tailoring M. Malzoni

**Fees are VAT 22% included**

*Proof of Resident, Nurse, Student status is mandatory. The registration form must be accompanied by documentation or a letter from the Department Head, confirming the status to: endometriosis2020@bluevents.it

The registration fee entitles to:
- access to all sessions & exhibition area
- congress kit (name badge, program booklet)
- certificate of attendance
- refreshments
- EACCME and Italian CME credits
**Registration**
Registration via website will be possible by September 24, 2019 until April 20, 2020. After this date only on site registrations will be accepted.
It is essential that the instructions for payment of all fees are strictly followed.

**Registration cancellation**
Notification of cancellation must be sent, in writing, to Bluevents. Cancellations will be accepted up to and including March 31, with a refund of all prepaid fees minus € 100 processing fee.
Refunds after this date will only be made under exceptional circumstances and will be at the sole discretion of the Organizing Secretariat.

**Registration key dates:**
- January 15 - Early fee registration deadline
- April 20 - Regular fee registration deadline

**Educational Credits**
For Italian physicians only - Il congresso internazionale (RIF. 288940) è stato accreditato dal Provider Bluevents srl (ID 836) ed ha ottenuto n° 6 crediti formativi ECM per le seguenti professioni: Medico Chirurgo, specializzato in Ginecologia ed Ostetricia.

**EACCME® Credits**
The international Congress "Endometriosis2020. Pushing knowledge. Breaking limits" has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **31 European CME credits** (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

**American Medical Association (AMA)**
Through an agreement between the Union Européenne des Médecins Spécialistes and the American Medical Association, physicians may convert EACCME® credits to an equivalent number of AMA PRA Category 1 CreditsTM. Information on the process to convert EACCME® credit to AMA credit can be found at [www.ama-assn.org/education/earn-credit-participation-international-activities](http://www.ama-assn.org/education/earn-credit-participation-international-activities).

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC®s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.
GENERAL INFORMATION

Each participant can only receive the number of credits he/she is entitled to according to his/her actual participation at the event once he/she has completed the feedback form.

breakdown of ECMEC®s per day:

- 26.04.2020 - 7.00
- 27.04.2020 - 8.00
- 28.04.2020 - 8.00
- 29.04.2020 - 8.00

The EACCME® awards ECMEC®s on the basis of 1 ECMEC® for one hour of CME with a maximum of 8 ECMEC®s per day.

Hotel Accommodation
We strongly advise all participants to reserve their hotel room as soon as possible in order to benefit from special rates. For group reservation please contact the Organizing Secretariat at endometriosis2020@bluevents.it.

Invitation Letter
The Congress Secretariat would like to clearly state that the letter is only to help the participant to obtain the visa or to raise travel funds and has no further financial obligations from the Conference towards the participant. The Congress Secretariat will only send you the letter of invitation upon request and after receipt of your registration and payment. A valid passport is required for non-EU citizens for entry into Italy. An identity card is sufficient for citizens of EU Member States. Please consult the Consulate nearest to you for special details.

Visas
Prior to booking flights, registrants are strongly advised to confirm with their travel agent whether they require a Visa to travel to Italy. Information about Visa requirements can be found on the World Travel Guide website. Bluevents will not be responsible for any cancellations or delays caused by authorities due to a lack of Visa or other required documentation.

Insurance
The Organizers cannot accept liability for personal accidents, and/or loss of and/or damage to private property of participants, either during or directly arising from the Endometriosis2020 Congress. Participants should arrange their own health and travel insurance for their trip.
